10/1/69

Dear John,

Some time ago I asked you if you had gotten the Shaneyfelt testimony. You haven't answered, but because you have made nox mention I've assumed you have not. I regard it as important. I think I have found in Frazier's what went undetected and have been working on it. Much the same can be true of Shaneyfelt's.

Other testimony may be important to others of us.

Therefore, as soon as you can, will you please ask for the Shaneyfelt testimony and that of both Willises? If they show no reluctance to do this and you feel that in a political campaign, with Jim in the hospital, they can find time to xerox more, include the Willises. It is little trouble for them to make more than a single copy on their automatic machine, so try and get at least two copies, please.

Bud was just down there but, with Jim out of the office and the others all busy or not in, he didn't come back with any.

Hurriedly,

Harold Weisberg
